Dashboard

The first option in the seller's panel is "Dashboard".

Using our advanced report system, sellers can see sales reports by day, by month, and by year. On the intuitive & nice interface of the seller panel, sellers can check all necessary information from the seller dashboard instantly.

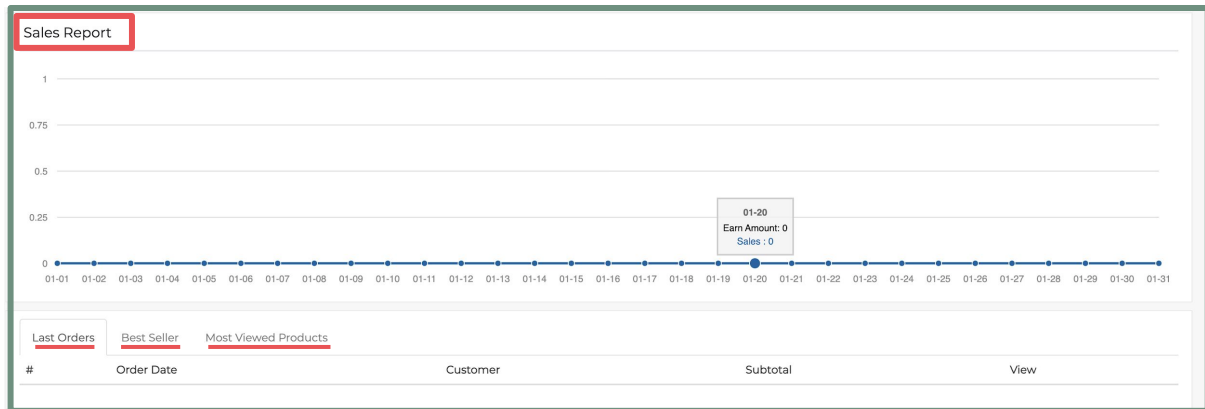

Get quick reports for:

- Credit Amount
- Total Sales
 - Today's Sales, Today's Earnings, Current Month's Sales, Current Month's Earnings
- Total Orders
- Total Products
- Your Top Countries

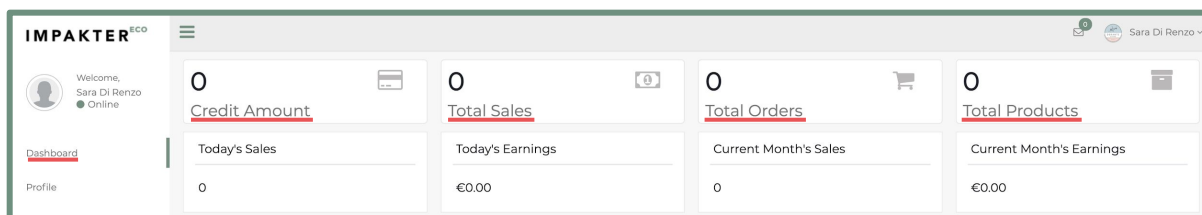

Dashboard

- Sales Report (last order, best seller, most viewed products)

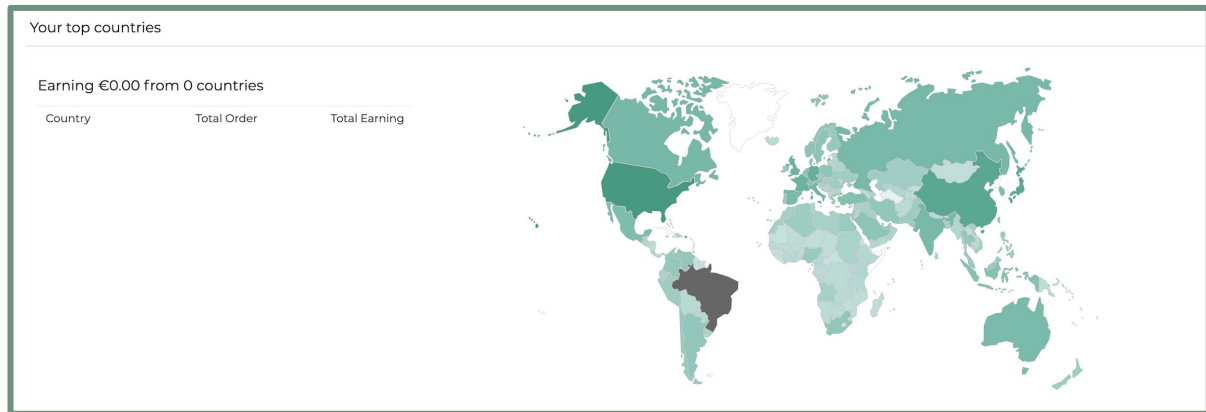

In Dashboard, the seller can view the **total credit amount** in its account, **total number of orders** that have been placed by the customers, the **total number of products uploaded** in the store, and they also view the **total number of customers** who are all logged in. They will also be able to see the whole lifetime sales and the total payment that is paid by the admin to the seller.

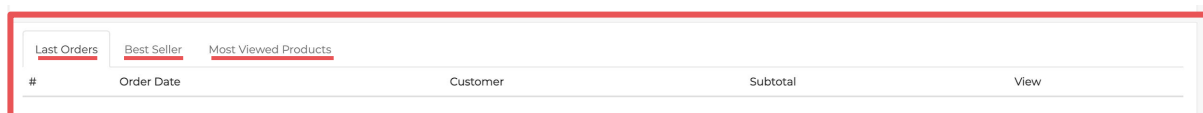

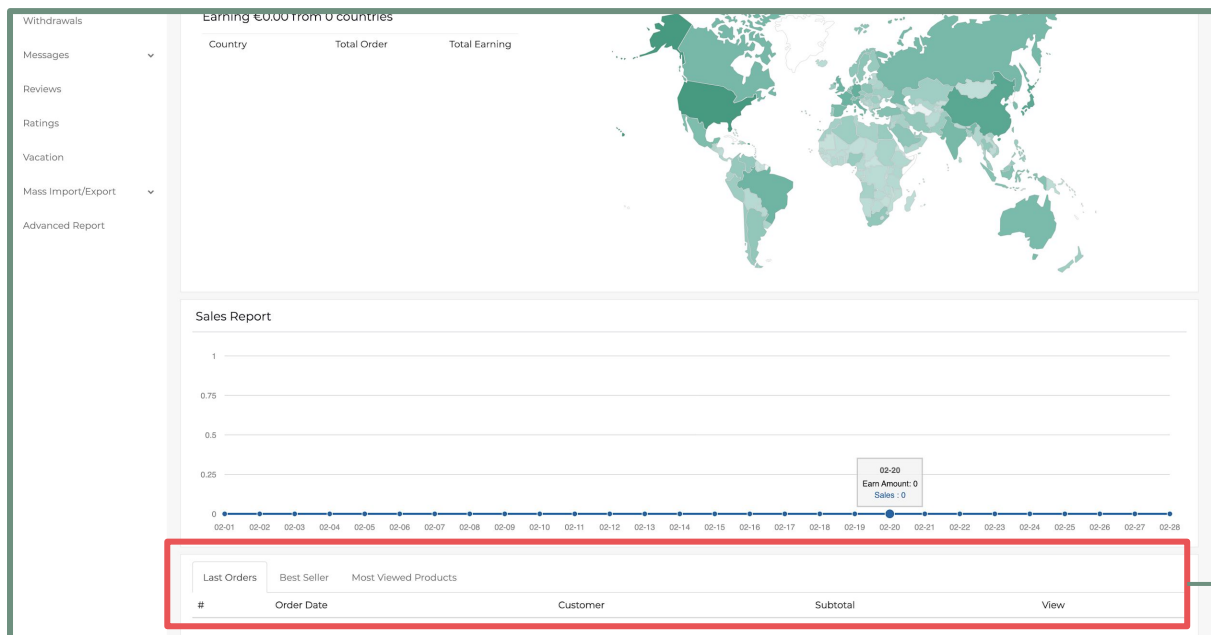

Dashboard

By clicking on the map the seller will be able to check the total order and total earnings from the specific country selected.

Below the Sales Report graph of the seller's sales they will find the details regarding **Last Orders**, **Best Seller** and **Most Viewed Products**, in order to make the process of promoting the store and its products more efficient.
